

## Electrical - Temporary Power Pole

A permit is required. Electrical service equipment shall be installed in accordance with the manufacturer's installation instructions, Article 230 of the California Electrical Code, and PG&E regulations. Temporary electrical service installations require city inspection and approval before PG&E will supply electric service. After passing inspection the inspector will provide a tag for the temporary service and fax an authorization to PG&E. The property owner or contractor will be required to contact PG&E at 1-800-743-5000 and request connection in order to complete the process.
