GREAT NEWS FOR LIBBY EBOOK USERS...
PLS cardholders can now access Partner Libraries!

The Peninsula Library System (PLS) is now part of an agreement with two institutions in sharing access to our Overdrive/Libby collections.
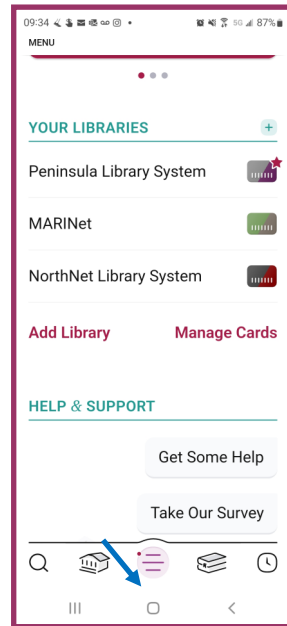

Partner Libraries are:

- MARINet
- NorthNet Library System

This means that including our 84,000+ titles, you will now have access to about an **additional 152,000 unique titles**.
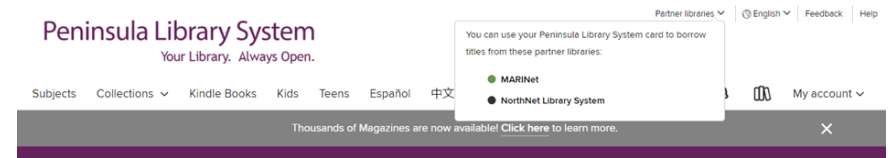

To access the Partner Library collections in **Libby**:

1. **Tap menu** (three lines bottom center) in the Libby app.

2. Select "**Add Library**."

3. Type in the name of the Partner Library you wish to add (**MARINet** or **NorthNet Library System)** and select it by tapping on the name.

4. Select "**Sign In With My Card**."

5. Under Partner Libraries select your library, **i.e. San Bruno Libraries**.

6. Enter your Library Card number.

7. **Tap Next** to begin searching on that Partner Library's Libby collection.

8. Repeat the process (steps #1-7) if you wish to add the other Partner Library.

9. After adding a Partner Library, you may toggle between any of the collections by tapping menu (three lines bottom center) in the Libby app) to choose the collection you wish to search and borrow from. A search across all the collections at once is not available.
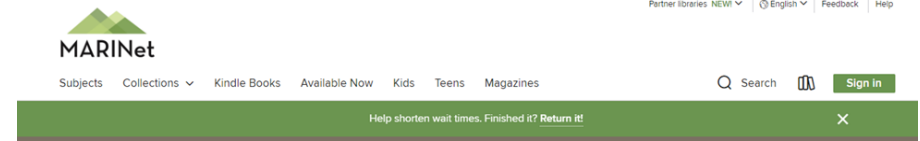

Please note that you cannot place holds on any items (including Magazines, Universal Class and All Access Comics) in a Partner Library's collection. Vice versa, their patrons cannot place holds on PLS items. To access borrowed items, go to your Book Shelf in app.
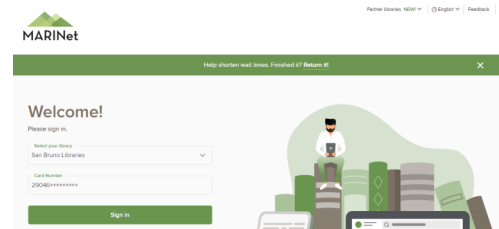

## What Partner Library access looks like on pls.overdrive.com:

1. Select a Partner Library and it will bring you to their eBook site.

2. Select your library and sign in with your Library Card.

3. Browse and check out like you normally do. To access the borrowed item, you will need to be on the individual Partner Library site you checked out the item from to access the eBook.

Note: On the pls.overdrive.com site you will see all items, even unavailable ones. You cannot place holds on anything from a Partner Library. Filter by Available Now to see what you can check out from our Partner Libraries.
