

TOM HAMILTON

Occupation: Incumbent

Education and Qualifications:

After being sworn in as Councilmember to citywide office in December 2020, I put my 14 years of experience on San Bruno committees and commissions immediately to work to tackle the many issues we face as a community. We've accomplished much to begin addressing these issues, especially in the areas of safety, revenue and fiscal sustainability, new development, capital improvements, improving our downtown, and more.

But there's so much more to do.

As your councilmember for District 2, I will focus not only on addressing our neighborhood issues and ensuring the residents in our District are properly served by our local government, I will also remain focused on the big issues facing our city as a whole, including continuing our efforts to revitalize our Downtown, ensuring San Bruno is resilient against climate change, and stabilizing our finances to ensure a bright future for us all.
